ABOUT SEEKRUN

Become a world-class brand
with the core of intelligent interconnection

PROFILE OF SEEKRUN

SEEKRUN was founded on November 1st, 2020. Intelligent Display Instrument of SEEKRUN brand is committed to R&D design, manufacturing and selling of intelligent display instrumental and related accessories products for E-bike , E- scooter and electric two-wheel transports.

Taking intelligent display instruments as the entry point and giving full play to its advantage of system connection as the core business, SEEKRUN is developing both in scope and depth with the department goals of boosting bicycle industry. In the future, intelligent display and control products will be developed to realize intelligent interconnection of people, objects and sceneries. Based itself on medium and high-end intelligent display instrument markets, SEEKRUN will only manufacture the best products with optimum quality.

02

SERVICE DIRECTION

Provide systematic scenario-based solutions

UNIVERSAL DISPLAY

After 18 months, SEEKRUN has launched a variety of display products in response to the general needs of the market, covering various screen types such as TFT, LCD, LED, and various screen sizes.

SEEKRUN keeps improving its products, pays attention to user experience, fully taps the pain points of display products, and makes targeted improvement plans to ensure that it provides customers with the best products. We focus on research on board end connector solutions, display effect solutions, IPX7 waterproof solutions, and interactive experience solutions.

PRODUCT LIST

PRODUCTS

- A1 — 3.5inch TFT-Horizontal Screen
- G1 — 3.5inch TFT-Vertical Screen
- X1 — 3.5inch TFT-Vertical Screen
- M1 — 3.2inch LCD-VA Instrument

NEW PRODUCTS

- Q1 — 1.9inch Integrated Display
- Y1 — 1.69inch TFT-Left-Mounted
- Eone — LED-Left-Mounted
- SD2000 — 1.9inch TFT-Left-Mounted

CUSTOMIZED DEVELOPMENT

Perfect design process and fast delivery cycle

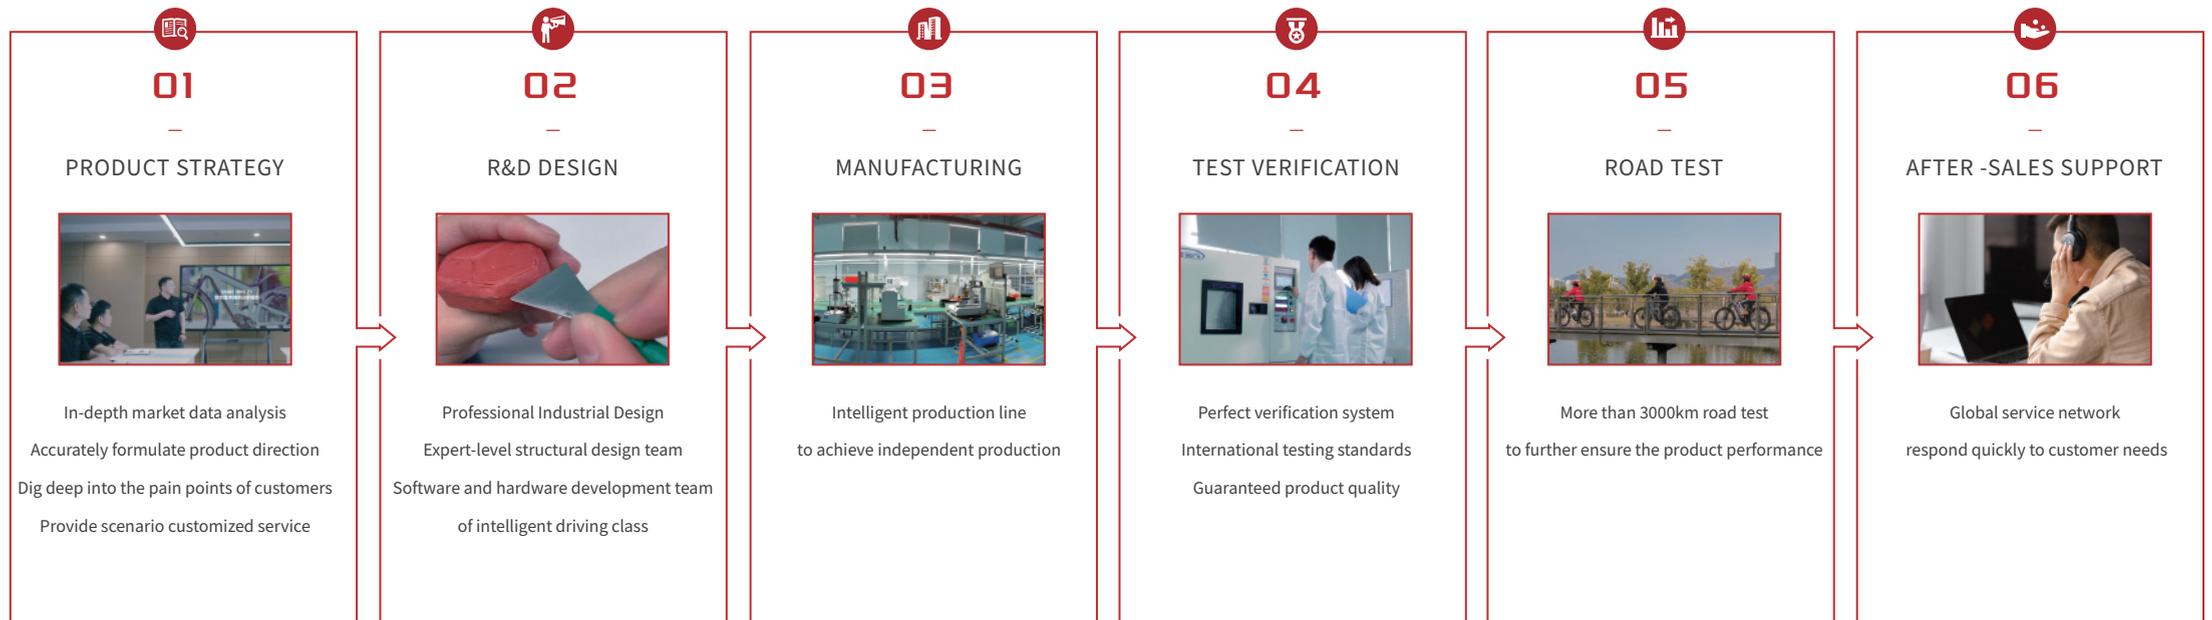

SEEKRUN has a complete R&D and manufacturing system, an expert-level core team, and has been deeply engaged in its professional field for more than ten years. With rich experience in successful projects, SEEKRUN can provide customers with customized display solutions.

A number of service outlets are distributed in the Yangtze River Delta region of China, Taiwan, China and Stuttgart, Germany , which can quickly respond to customers' after-sales needs and technical support.

SERVICE NETWORK

CUSTOMIZED PROCESS

DISPLAY ACCESSORIES DESIGN

SEEKRUN develops not only displays, but also various types of related accessories, which can be freely combined according to customers' needs.

01

UNIVERSAL REMOTE

SEEKRUN has developed a variety of switch, all of which can be used universally and can be freely combined with different instruments to meet the different aesthetic needs of customers.

02

INTEGRATED REMOTE

SEEKRUN has been working to reduce the number of parts on the handlebar end, so it has designed a remote that integrates the bell and integrates the remote for battery and gear display.

03

APP

The development of the APP realizes the navigation function of the display side, and with the LED button, the virtual smart display can be realized through the mobile phone.

04

MULTIFUNCTIONAL CLIP RING

In order to reduce vehicle accessories, SEEKRUN designed a multifunctional bracket, which can meet the installation of displays and lights at the same time, and supports angle adjustment.

05

HUB

In order to simplify the wiring of the whole vehicle and reduce the amount of wire, the independent module is suitable for a variety of displays.

06

HIDDEN WIRING SOLUTION

Hidden wiring solution realized by integrated handlebar design.

03

PRODUCT INTRODUCTION

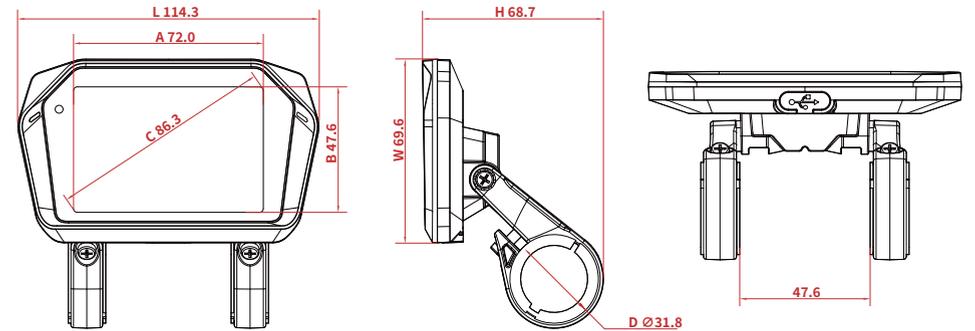

Friendly HMI experience

INTRODUCTION-A1

With a 3.5-inch horizontal screen, A1 is adaptable to urban leisure bicycles. This product is oriented to high-end markets with a focus on Product texture.

With excellent performance and a novel shape. A1 is also equipped with breathing lights which change the color with the speed.

The upgrade version of A1 even possesses an APP to realize the function of navigation.

PRODUCT ADVANTAGES

- OCR Full-Fit
- Breathing Light
- Multi-color Gear
- Dynamic Interface
- Navigation (Upgrade)
- Board End Connector
- Type-C Charging Port
- Support UART/CAN Protocol
- Soda Lime Glass Hardness Value:6h
- Customized Backlight Module:450cd/m²

PRODUCT PARAMETERS

Category		Parameter
Size	L*W*H	114.3*69.6*68.7mm
	A*B	72.0*47.6mm
	C	3.5"
	D	Φ25.4/Φ31.8mm
Screen	Type	Color Matrix
	Pixel	480*320px
Connector	Type	Board End Connector
	Length	300/250
Core Data	Rated Voltage	36V/48V
	Support Modes	Mode Gear / Digital Gear
	Operating Temperature	-20~50°C
	Waterproof	IPX6
	Weight(g)	163±5
Further Specifications	Com.Protocol	UART/CAN
	Bluetooth	Optional
	Navigation	Optional
	Light Sensor	√
	Type-C	√
Test & Certifications		CE / Rohs

INTRODUCTION-G1

With a 3.5-inch high-resolution color screen, G1 suits for urban leisure bicycles. Possessed of a dainty body and a curved 2.5D screen, G1 is exquisite in details. Besides the pretty appearance, G1 is interactively-friendly, which may render a pleasant user experience.

PRODUCT ADVANTAGES

- OCA Full-Fit
- IP67 Waterproof
- Multi-color Gear
- Dynamic Interface
- Board End Connector
- Support UART/CAN Protocol
- Soda Lime Glass Hardness Value:6h
- Customized Backlight Module:450cd/m²

PRODUCT PARAMETERS

Category		Parameter

CERTIFICATION AND TEST

High quality by ingenious craftsmanship

CERTIFICATION

SEEKRUN not only focuses on research and development, but also mass-produces products in accordance with international standards and successfully passed various testing standards.

EMC test report

ROHS certification

CE certification

Utility model & Appearance patent

TEST

SEEKRUN has perfect testing capabilities, we continuously optimize our products by strict test process.

In addition, we have set up a cycling club to test the products on the road. The members of SEEKRUN also took this opportunity to fully experience the products and constantly propose better display solutions. SEEKRUN also hopes to take this opportunity to enhance everyone's awareness of environmental protection and develop a good habit of green commuting.
