## ABOUT SEEKRUN

Becoming a world-renowned brand  
focusing on intelligent interconnection

## PROFILE OF SEEKRUN

**10<sup>+</sup>** years  
EXPERIENCE

**90%**  
BACHELOR'S & MASTER'S DEGREE

**30<sup>+</sup>**  
PATENTS

Established in 2020, SEEKRUN is a dynamic brand dedicated to the R&D, manufacturing, and sales of intelligent displays and accessories for E-bikes and Light E-vehicles.

Our brand encapsulates the philosophy of "Seek & Run", embodying the spirit of exploration, action, and continuous progress. "Seek" reflects an inquisitive mindset that drives innovation and growth, while "Run" symbolizes taking action and embracing challenges.

With a relentless pursuit of excellence, we prioritize exclusivity and quality, setting the benchmark for superior products and service.

We strive to create products that perfectly integrate with your E-Mobility, enhancing your riding experience and fostering a harmonious partnership between humans, mobility, and the environment. We envision a future where electric journeys are not only sustainable but also exhilarating and transformative.

# 02

## SERVICE DIRECTION

Providing systematic and scenario-based solutions

## UNIVERSAL DISPLAYS

To meet the diverse demands of the market, SEEKRUN has invested 18 months of research and development to produce a range of displays, covering multiple screen sizes and types such as TFT, LCD, LED, etc.

SEEKRUN is dedicated to continuous improvement of products, with a focus on enhancing user experience. Identifying pain points for customers and providing targeted solutions, such as high-definition display, panel connectors, IPX7 waterproof rating, optimal human-machine interactive experience, etc., which ensure the high-quality products.

## PRODUCT LIST

### PRODUCTS

- A1** — 3.5-inch TFT horizontal screen display
- G1** — 3.5-inch TFT vertical screen display
- X1** — 3.5-inch TFT vertical screen display
- M1** — 3.2-inch LCD-VA display

### NEW PRODUCTS

- Q1** — 1.91-inch TFT built-in display
- Y2** — 1.69-inch TFT left-mounted display
- Eone** — LED left-mounted display

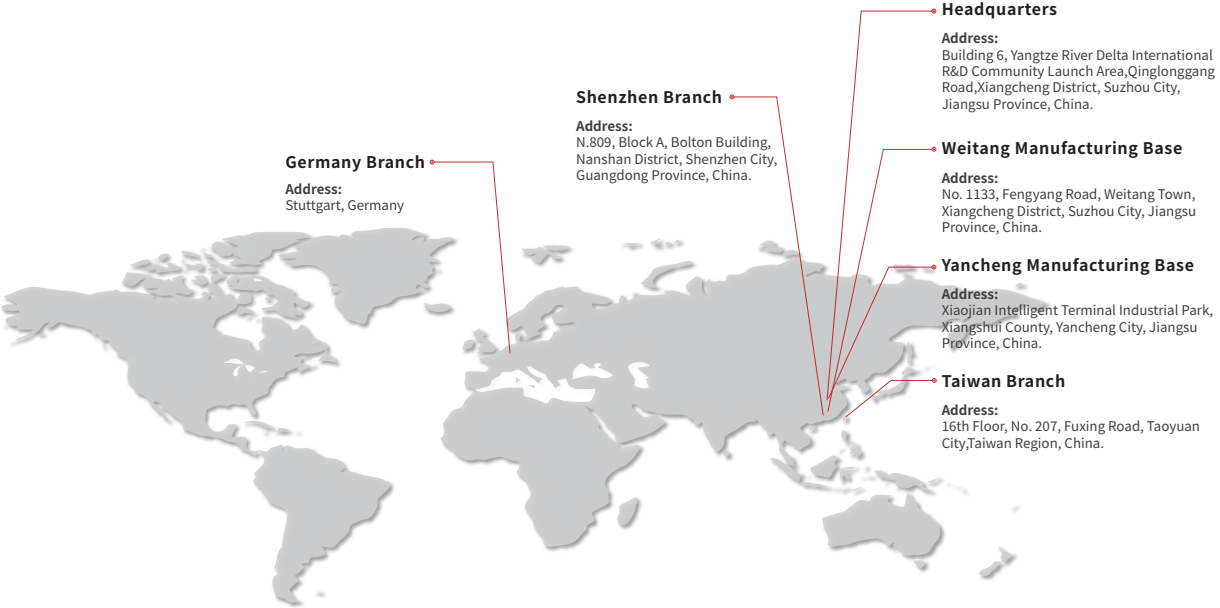

# CUSTOMIZED DEVELOPMENT

Comprehensive R&D system and fast delivery

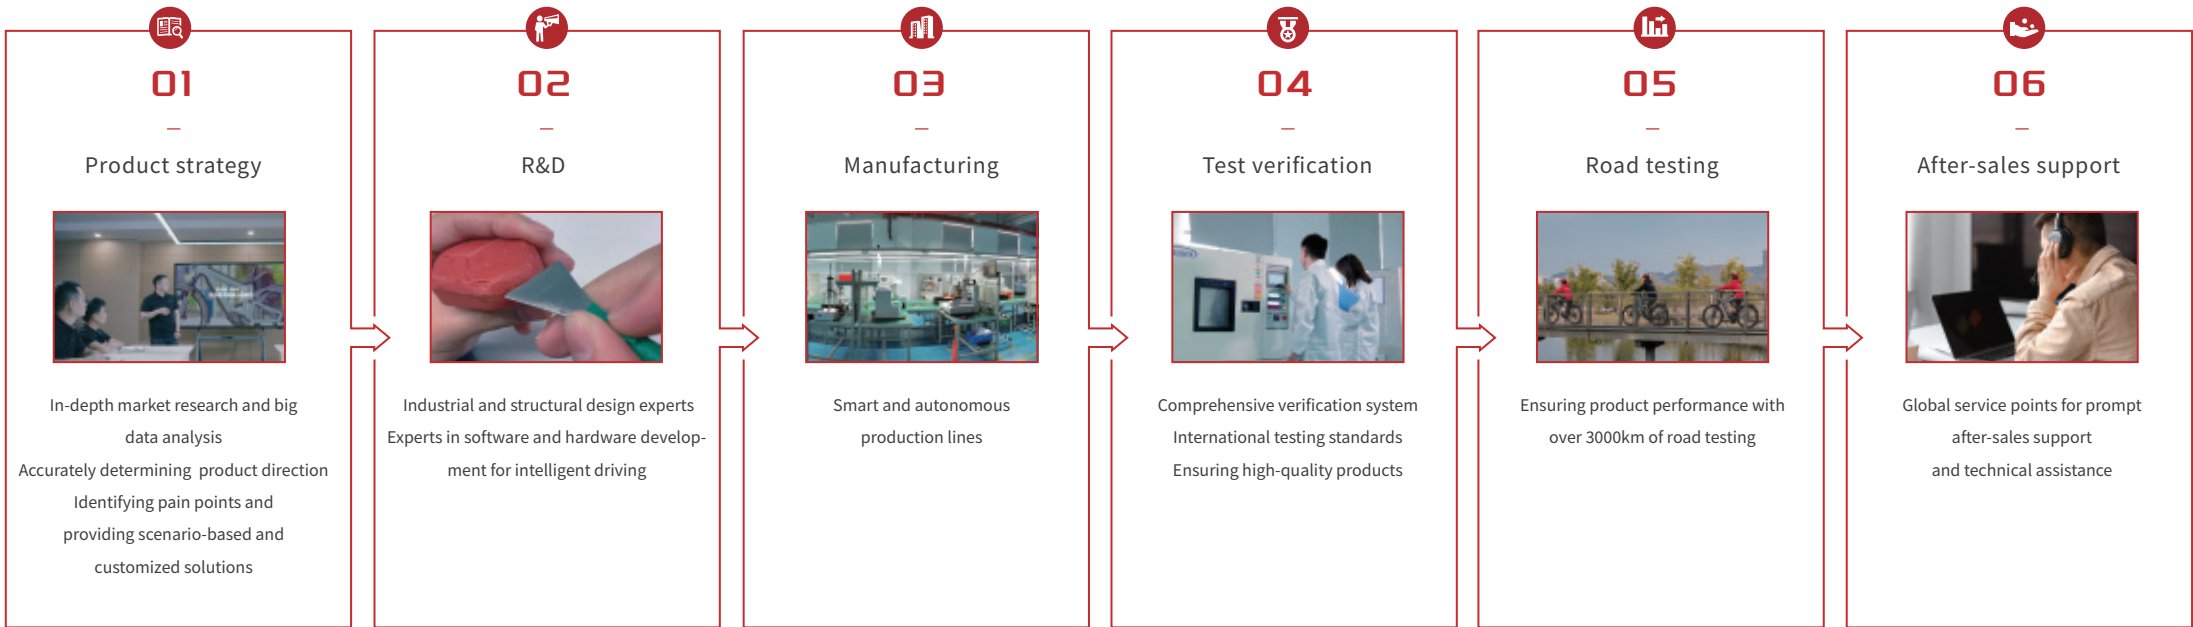

SEEKRUN has a comprehensive R&D and manufacturing system. Our team consists of dozens of experienced experts who have delivered successful projects in this fields and can provide customized solutions.

To provide prompt after-sales support and technical assistance to our customers, we have established branches in Yangtze River Delta region and Taiwan, China, as well as in Stuttgart, Germany.

# SERVICE NETWORK

# CUSTOMIZED PROCESS

# DISPLAY ACCESSORIES

To address the diverse needs of users, we develop not only multiple displays but also intelligence and innovative accessories. Our customers can freely combine these products in various ways to create a customized solution.

01

### Compatible remotes

Multiple remotes are perfectly compatible with all kinds of our displays to meet the diverse needs.

02

### Integrated remotes

A remote is integrated with an horn, making the handlebar neater.

03

### APP

Keeping all key riding information in one place.  
Not only a smartphone, but also a intelligent control center.

04

### Multi-functional brackets

You can easily mount both a display and headlight on a multi-functional bracket. The adjustable angle can also provide comfort.

05

### Hub

A built-in and underlying hub holds the wire harnesses and avoids the clutter.

06

### Internal integrated wire harness solution

The neat handlebar features internal integrated wire harness.

# 03

## PRODUCT INTRODUCTION

Friendly Human-machine interaction

# INTRODUCTION-A1

This is a 3.5-inch horizontal screen display specifically designed for city e-bikes, targeted at the high-end market, with an emphasis on product texture.

Not only does it offer exceptional performance and a stylish appearance, but it also innovatively incorporates breathing lights which change the color with the speed to enhance the interaction between humans and machines.

Additionally, the upgraded version features an app that provides navigation functionality.

## PRODUCT ADVANTAGES

- OCR full lamination
- Breathing lights
- Multicolored riding mode
- Dynamic interface
- Panel connectors
- Type-C charging port
- Compatible with UART/CAN protocol
- Soda-lime glass hardness value:6h
- Display brightness:450cd/m²
- Navigation (the upgraded version)

# INTRODUCTION-M1

This is a highly cost-effective 3.2-inch segmented screen display with low power consumption. Thanks to the black background and white large font, the display is particularly clearly designed, so that gives you more safety and comfort when riding.

## PRODUCT ADVANTAGES

- OCA full lamination
- IPX7 waterproof rating
- Panel connectors
- Compatible with UART/CAN protocol
- Soda-lime glass hardness value:6h
- Display brightness:450cd/m²
- LCD-VA screen

## PRODUCT PARAMETERS

# INTRODUCTION-Q1

This is a 1.91-inch TFT embedded color screen display.  
The only one integrated wire harness is hidden internal to avoid the clutter.  
In combination with our self-developed angle-adjustable stem,you can adjust it to the optimum angle for good readability and a comfortable ride.

## PRODUCT ADVANTAGES

- OCA full lamination
- IPX7 waterproof rating
- Type-C charging port
- Wide voltage:10V-100V
- Panel connectors
- Adjustable stem angle
- Compatible with UART/CAN protocol
- Soda-lime glass hardness value:6h
- Display brightness:450cd/m²

# INTRODUCTION-Y2

This is a 1.69-inch left-mounted color screen display with small and exquisite design, which can finely fit multiple e-bike styles.

Its ergonomic remote features a curved shape that perfectly fits the thumb arc, providing a comfortable operating experience throughout the entire ride.

## PRODUCT ADVANTAGES

- OCA full lamination
- IPX7 waterproof rating
- Multicolored riding mode
- Panel connectors
- Type-C charging port
- Wide voltage:10V-100V
- Compatible with UART /CAN protocol
- Soda-lime glass hardness value:6h
- Display brightness:450cd/m²

# INTRODUCTION-Eone

This compact and ergonomic LED display nicely fits the handlebar and can be operated intuitively, which makes it particularly suitable for e-mountain bikes.

The LEDs for more safety are very easy to see even in sunlight. You can recognise the selected riding mode by the different LED colours.

Additionally, the upgraded version of this display can also function as a remote, offering users even more flexibility and convenience.

## PRODUCT ADVANTAGES

- IPX7 waterproof rating
- Panel connectors
- Compatible with UART/CAN protocol
- Soda-lime glass hardness value:6h
- Function both as a remote and an independent display
- LED screen

## CERTIFICATION AND TEST

Craftsmanship of superior quality

## CERTIFICATION

In addition to prioritizing R&D, SEEKRUN also ensures that our products adhere to international standards and has successfully passed various testing standards. SEEKRUN has filed over 30 patents related to displays.

EMC test report

ROHS certification

CE certification

Utility model & Appearance patent

# TEST

SEEKRUN has comprehensive testing capabilities, equipped with more than 40 test apparatus to accurately simulate the complex environment and adhere to the excellent quality of products.

In addition to bench testing, SEEKRUN also established a cycling club for road testing, allowing the products to be tested in real-world scenarios.

Members of SEEKRUN also take advantage of this opportunity to fully experience our products and constantly propose better solutions. SEEKRUN also aims to use this opportunity to raise environmental awareness and promote green travel habits.
